### MY GITHUB:

<https://github.com/Vasanthan-aka-Maari>

### OWN PROJECTS

#### Food recipe app

(<https://vasanthan-aka-maari.github.io/Food-Recipe-App/>)

- Displays recipes based on users' search.
- It displays gets all the information from an API.
- **JavaScript, React.**

#### Weather app

(<https://vasanthan-aka-maari.github.io/Weather-app/>)

- You can get the weather at any location by this app.
- View in mobile screen size for the best experience.
- Uses open-weather map API, **JavaScript, React.**
- 

#### UnSchool website

([https://vasanthan-aka-maari.github.io/unschool\\_website/](https://vasanthan-aka-maari.github.io/unschool_website/))

- A good responsive website.
- I love the concept of unschooling so I enjoyed building it.
- **HTML, CSS, JavaScript.**
